Nationality: Iraqi | Driving License: Private

PROFESSIONAL SUMMARY

I am a Financial Accountant with 6 years of experience in financial auditing, internal controls, and end-to-end accounting operations. I have a proven track record of taking full ownership of my assigned responsibilities — including independently running an entire accounts division — while continuously improving processes, documentation, and reporting templates to make them faster and more reliable than the methods they replaced. I have experience building accounting systems from the ground up for new projects, and training and mentoring new accounting and IT staff. I am driven by a strong sense of professional responsibility: committed to work that remains effective and well-managed long after the task is handed over, not simply to completing tasks for a paycheck.

PROFESSIONAL EXPERIENCE

Financial Accountant — KAT Company, Kirkuk, Iraq

Sep 2022 – Present

- Independently managed the full accounts division for 4–5 months, covering all responsibilities single-handedly with a very low error rate.
- Recruited, trained, and mentored a newly hired junior accountant and an IT staff member, who continue to rely on ongoing guidance and support.
- Partnered directly with company management to build the accounting system from scratch for a new venture (VGO Project) using the Al-Ameen Warehouse Management System, and directed accountants through to full implementation.
- Concurrently managed the factory's accounts alongside project responsibilities.
- Built the accounting foundation from the ground up for a second new venture (Al-Safwa Al-Khassa Project), including onboarding and directing a newly appointed accounts employee.
- Redesigned internal forms, official records, and reporting templates, replacing outdated methods with faster, more efficient processes.
- Developed internal controls and procedures to strengthen financial accuracy and safeguard company assets.
- Oversaw the preparation and compliance of financial documentation required for regulatory audits.

Procurement Auditor — Cement Laylan, Kirkuk, Iraq

Feb 2021 – Dec 2021

- Conducted comprehensive audits of procurement processes to ensure compliance with financial regulations and policies.
- Analyzed procurement contracts for financial implications and adherence to budget constraints.
- Collaborated with cross-functional teams to identify cost-saving opportunities and improve procurement efficiency.
- Organized and archived a large backlog of historical disbursement and receipt records for the department.
- Helped streamline a set of administrative directives that improved warehouse tracking accuracy and purchase/order procedures.

EDUCATION

Bachelor's Degree in Accounting — Al-Kitab University, College of Administrative and Financial Sciences, Kirkuk, Iraq

Oct 2018 – Sep 2022

Gained in-depth knowledge of financial accounting principles and practices, including preparation of financial statements and reporting standards.
